

CC1000

The control console CC-1000 provides an user-friendly, easy and intuitive way to manage, control, and configure PA/VA systems because it works as the server computer of the software SIME.

The SIME allows as well a remote operation from a wide variety of devices: tablets, smartphones, PC, etc.

The CC-1000 has a 8,42 LCD touchscreen and it is noise-free, which makes it perfectly suitable for any environment with special acoustic requirements, such as museums, hospitals or libraries.

Features CC-1000:

- It allows system control
- Intuitive user interface with a 8" colour touch screen
- The monitor is connected to the central unit by only 1 cable
- Stereo audio output
- Fanless operation
- The central unit is prepared to be mounted in any location or position

Technical specifications:

Model	LDACC1000S03
Power supply	• 220 - 240V ~ 50 Hz
Power Consumption	• <30W
LCD size	• 8,4"(202mm) 4:3
LCD resolution	• 1444000 pixels
Contrast/Bright	• 250:1 / 380cd/m2
Ethernet Interfac	• 10/100
USB	• 2.0
Audio	• Mini-jack
Processor speed	• 1 GHz
Disipation	• Pasive
Operating	• Windows XP Embedded ® (SP2)
Processing unit dimensions	390mm x 206mm x 52mm(Large x Widht x Depth)
