

## LDA RCD-21R

The LDA RCD-21R is an all-in-one multi-audio source player that includes a CD/DVD player, a FM/AM radio, and USB and SD cards interfaces.

It is an energy-efficient and cost-effective equipment that is able to deliver pro-audio level performance.

### Features of the LDA RCD-21R:

- Integrates CD/DVD player, FM/AM and USB and SD interface.
- Reads Mp3 files
- Independent DVD/USB/SD and FM/AM lines output; Can play music and applications at two channels at the same time. Mix audio RCA output.
- Two line outputs with independent volume control
- Supports CD, DVD videos and JPEG
- RMVB 720P format decoding and CVBS
- Supports USB 2.0 high speed drives and SD Cards

### Technical specifications:

Model	LDA RCD21RS01
Power supply	220V AC 50/60Hz
Frequency response	±3dB
Inputs	Fm75 Ohms antenna terminal, USB port and SD port
Output	No. 1: Stereo RCA output FM/AM tuner: 775mV; Stereo RCA output DVD/USB/SD:7750mV. No. 2: Mixed sound RCA output: 775mV
Distortion	0.05%
SNR	≥ 80 dB
Analog Output(V) (Validity)	2.0 ± 0.2V
Channel separation	≥75 dB
Video output level Vp-p(V)	Composite video output:1.0±0.2 Horizontal sync:0.3±0.0
Horizontal definition AV output	VCD: ≥250; SVCD: ≥320; DVD: ≥450
FM/AM Band frequency range	FM : 87.5MHz ~ 108MHz AM : 531KHz ~ 1710KHz
Antenna input impedance	FM:75Ω
Power Consumption	< 13W
Dimensions	482×44×252 mm; 1U in 19" rack.
Weight	1,2 Kg.
