

SF-25T

Ref: LDASF25TS02

The LDA spherical speaker SF-25T is a 5" full-range model. Acoustically designed to achieve wide coverage distribution and uniform sound.

Its power and excellent performance ensure high sound quality in any direction.

Elegant and robust enclosure made of ABS.

Features of SF-25T:

- High performance: 92db (1W, 1m)
- Excellent quality of voice transmission.
- Low loss transformer for 70/100V lines
- Easy installation
- Metallic grille acoustically transparent

Technical Specifications:

| Model | SF-25T |
|-------------------------------------|---|
| Reference | LDASF25TS02 |
| Power | 20W RMS |
| Speaker size | 5" |
| Frequency response | 150Hz—20 kHz |
| Sensitivity | 95 dB (1 W, 1 m) - 3 dB |
| Dispersion | 360°/180° (horizontal / vertical) |
| Colour | White. RAL 9016 (other colours on demand) |
| IP protection grade | IP21 |
| Transformer 100V/70V | 20/10/5W @ 100V ; 10/5/2,5W @ 70V; Low Impedance: 8 ohm |
| Connector | 4 poles |
| Bracket | Surface with screw |
| Dimensions (width x height x depth) | 184 x 170mm / cable length 1800mm |
| Weight (Net/Gross) | 1,37Kg / 1,73Kg |
