

ZES-22ACSI

Ref: LDAZES22ACSI01

Adaptation unit for digital matrix ZES-22 that allows the system to inject up to 8 MPS-8 microphones, with or without expansion keyboards.

It has a bus power input to use the MPS series microphones without a local source, only connected by a bus cable.

It has protection against short-circuit and wrong polarity.

The ZES-22ACSI is coupled directly to the ZES-22 unit, allowing direct connection of an ACSI bus.

ZES-22ACSI Features:

- Direct installation on ZES-22.
- Up to 8 MPS-8Z units can be connected, with or without expansion keyboards.
- Allows remote power supply for microphones connected to the bus.
