

SC-42T

The Sc-42T is a coaxial speaker compound of an 5" woofer and 1" tweeter.

The enclosure and the grill are made in metal.

The easier connection is sured by means of an terminal-block.

The transformer permits the connection to 70V line and it allows choosing between 5 and 2.5W of power.

It is provided of tight fitted pieces made in ABS for intalling on the metal sheet or plaster ceiling.

Features:

- High performance: 88 dB (1W, 1m)
- Great quality of music and voice playback.
- Low losses transformer for 70V/100V lines.
- Easy installation
- Transparent acoustically metal grill.

CARACTERÍSTICAS TÉCNICAS

NOMINAL POWER	20 W AES
FREQUENCY RESPONSE	100-20.000 Hz. (+/- 5 dB)
SENSITIVITY	88 +/- 3 dB
MATERIAL	ABS and STEEL SHEET
COLOUR	White, RAL9016
TRANSFORMER (70V)	5 / 2.5 W
CONNECTOR	Terminal-block
INSTALLATION	Tight fitted pieces by means of screws for intalling on metal sheet or ceiling.
DIMENSIONS (diameter x depth)	203 x 145 mm.
CUT DIAMETER FOR INSTALLING	170 mm.
WEIGHT	1.8 kg.
