

WAC-212

WALL CONTROLLERS

The WAC-212 of LDA is a wall controller that gives a quality solution for sonority of small installations and allows to develop multi-zone sound systems at the same time. The external appearance is elegant and sophisticated thanks to the finished in methacrylate of the front panel.

It includes a 2 channels and 12W/channel amplifier allowing the connection to 4 or 8 Ohms speakers. Besides, the main sound inputs, the auxiliary input, USB player and SD card inputs and radio FM are included.

The control is realized easily by the interface shown in the 2,8" TFT colour display. This product could be adapted to any environment due to it could be flush with the wall using the 86mm standard front size.

Features:

- Volume Control
- Supply source
- Amplifier integrated
- Standard front size
- MP3 player included
- USB and SD cards devices for reproduction
- Radio FM
- Pre-amplified Output

WAC-212

TECHNICAL SPECIFICATIONS	
NOMINAL POWER (RMS)	2x 12W
SPEAKER IMPEDANCE	4-8 Ohm
COLOUR	White (RAL9003)
MATERIAL	ABS
BRACKET	To flush with the wall
POWER SUPPLY	12 VC DC o 230V~
AUDIO PLAYER	MP3, WMA, APE, FLAC, OGG, AAC AC3, DTS
PICTURE PLAYER	JPG, BMP, GIF, PNG
TFT SIZE	2,8"
RESOLUTION	240x400 Pix
AUDIO SNR	60 dB
FREQUENCY RESPONSE	40-20kHz
FM FREQUENCY	87,5-108 MHz
DIMENSIONS (height x width x depth)	86 x 86 x 42 mm
WEIGHT	0,25 kg
