Database backup

Reference: **LDA SIME CONTROL**

LDA audioTech

1 How to backup SIME Database

To backup the database, the following steps must be followed:

1. Open the Windows File Explorer and follow the path: "C:\Program Files\LDA Audio Tech\SIMEv2\postgres\bin".
2. Open the application pgAdmin3.
   Right-click on (localhost:5432) and select "Connect". It will ask for a password: Lda2112.
3. Unfold “Databases” and right-click on Sime and “Backup…”.
4. Select where the backup will be stored. The format should be “Tar”. Click “Backup” and wait until the following line is showed: “Process returned exit code 0".
5. The file will be “.backup” as extension.
6. Close the application.
